Revision A.

Part No: KP-CHV19-SS
Description: 2021+ Tahoe rear partition (Second Gen.)
Vehicle: Chevrolet Tahoe
Model year: 2021+

Tools Required

5/32 allen key	**7/16 socket**	

Troy Products recommends reading through all installation instructions prior to installation to check for all necessary parts.

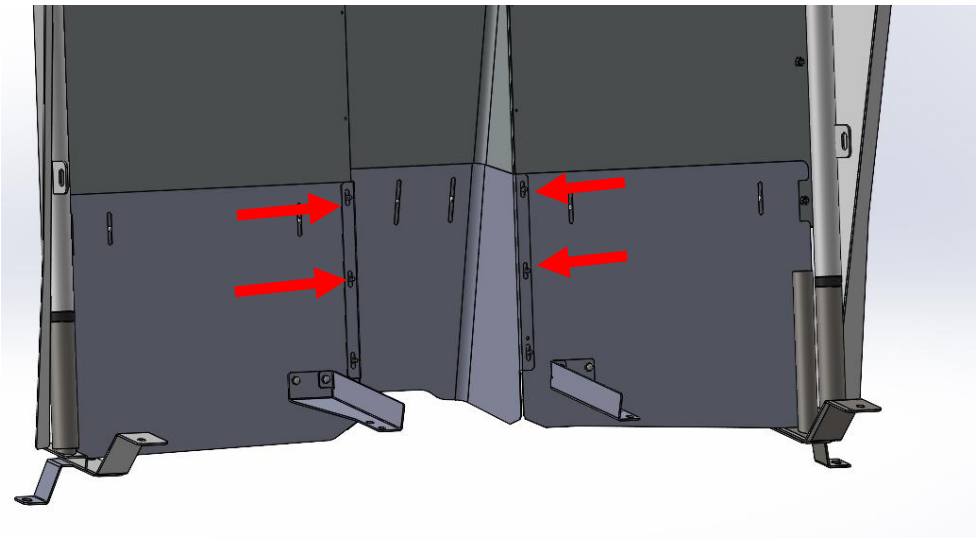
I.) Preparation:

1.) Front partition must be installed before kick panels as per instructions on partition install kit.

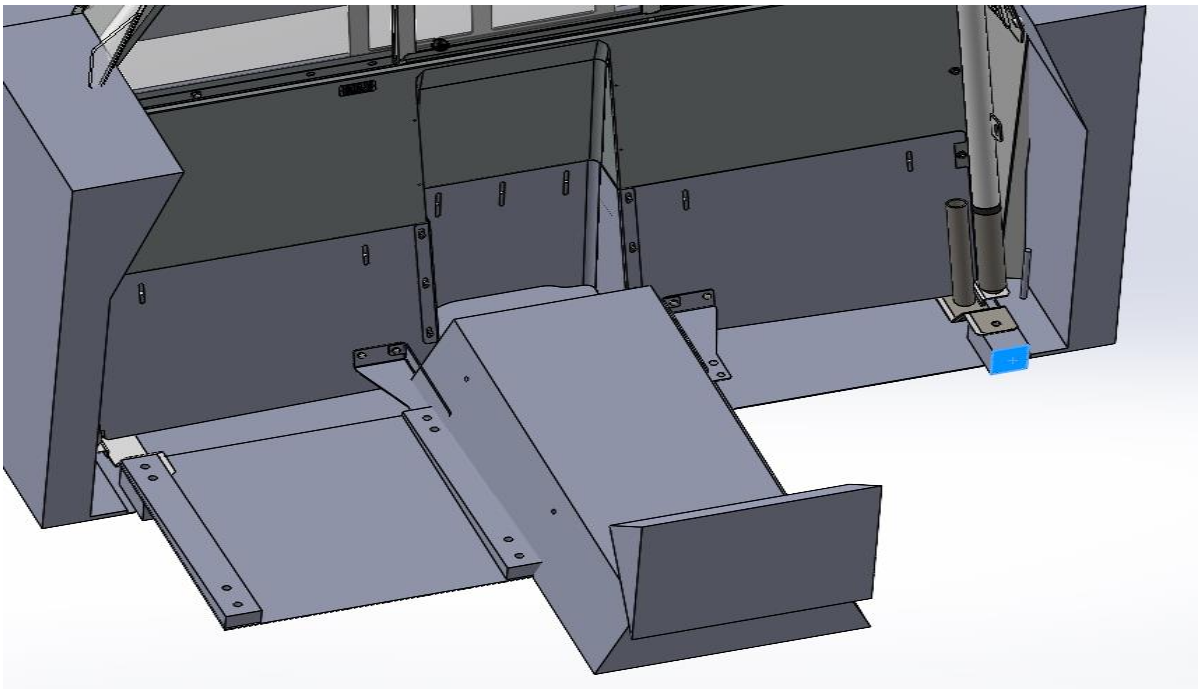
II.) Panel Installation:

2.) Assure the panel sits towards the vehicle front. Insert four provided ¼-20x0.5 fasteners with washers, and loosely secure them with acorn nuts. Acorn nuts sit toward the vehicle front. Ensure kick panels sit flush on floor.

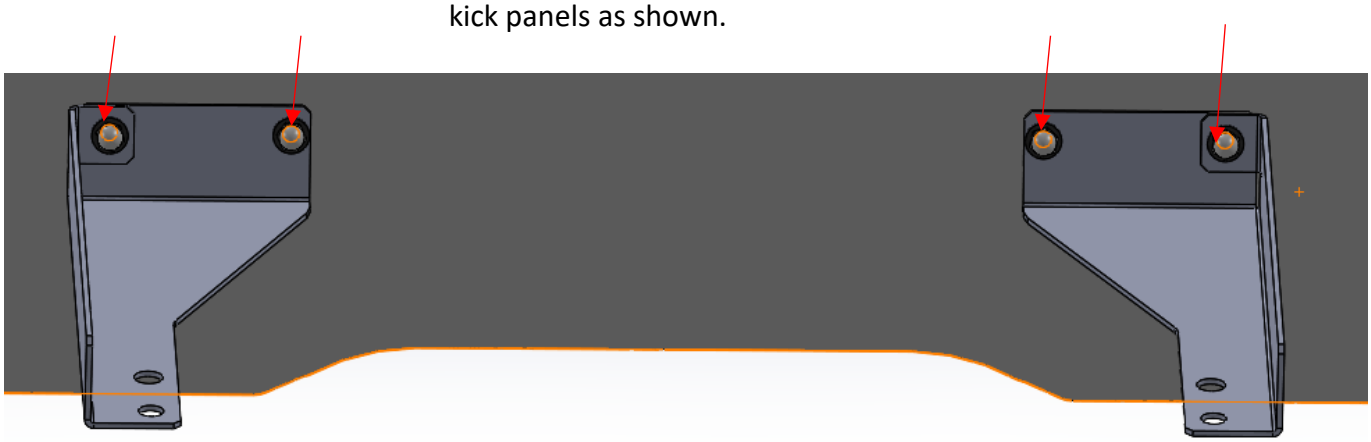
3.) Place center section (#c) on the front side of partition, aligning PEM studs with slots in kick panels. Fasten center section with four ¼-20 acirb nuts and washers provided on the top four mounting locations.



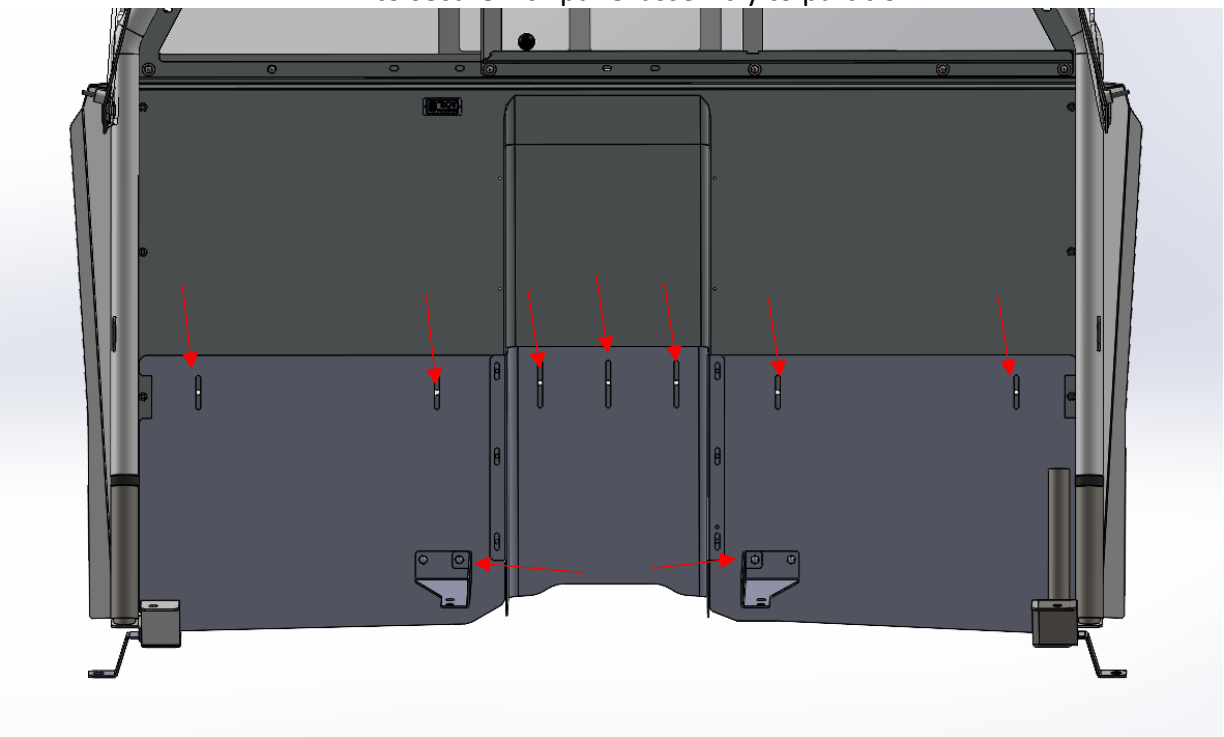
4.) Remove the rear inside mounting screws of front seats where shown. Insert driver and passenger support braces and insert OEM screws in seat mounts, loosely.
   a.) If center console floor mount and/ or computer mount are o be used, ensure the kick panel braces take the lowest position under the seat.



5.) Use two ¼-20 acorn nuts and washers, provided, to secure braces to kick panels as shown.



6.) Use two 1/3-20x 5/8 screws with ¼-20 acorn nuts and washers provided to secure the reaming mounting points of the braces as shown. Use washers on the front side of kick panels.
7.) Use four ¼-20x 5/8 screws with ¼-20 acorn nuts and washers provided to secure kick panel assembly to partition.



Ensure all fasteners are tightened.

Your installation is now complete. If you have any questions or suggestions for adding additional instructions, please call **Customer Service at (800) 700-8769.**
